INVENTING FUTURE

Our Company

Fortunexis Systems Pvt Ltd is the one-stop name for providing integrated security systems, best-in-class corporate furniture's / partitions, and IT infrastructures to clients in retail, corporate & the enterprise level (India and Overseas). Our full set of services keeps your infrastructure strong and robust with growing infrastructure needs.

Our integrated electronic security solutions include CCTV & access control integration with perimeter protection security solutions and entry restriction devices combined with other security solutions that provide robust security and complete satisfaction.

Daily maintenance activities or emergencies, we are available 24 x7 and are known for our association with some of the biggest and reputed names in the corporate & government sectors.

IT Infrastructure

Data Centre & Storage Facility

We provide a fully managed data center consultancy, designing, and building services customized as per the client's needs. With a strong collaboration with the leading Data center solution OEM's, we ensure end-to-end solutions.

Video Walls

Offering a wide range of resolutions, sizes, and technologies, our portfolio of high-end LCD video walls exhibits years of experience in the technology of video wall display. Our selection comprises Planer's LED LCD video wall solutions that are built to precision and meet challenging environments.

Networking and IP phones

Our outdoor and indoor wireless networking solutions are ideal for government projects. We specialize in VOIP, Teleconference Solutions as well as the design and implementation of high-end wireless networking solutions.

IT Equipment

Thanks to our eclectic collection of IT equipment from some of the best manufacturers, we can help meet the requirements of large-scale projects for intelligence as well as defense programs of the government.

Corporate Furnitures & Partitions

Corporate Furniture - We are committed to offering a huge range of workspace solutions at competitive prices. At the same time, we strive to maintain awesome client service, right from the commencing phase of every project to its completion. Progressing with the latest research and development in seating, ergonomic solutions, and furniture, we possess the skill and proficiency to gauge, approve, and implement solutions that are tailored to your specific requirements.

In India and overseas, for private or government offices, we are among the best suppliers of modular office work station, modular office furniture, and office furniture. From chairs to cabinets, you can rely on our products for a unique, classy, yet contemporary look for your workspace.

Interior Work - Apartments or offices, you can always depend on our interior work to render a distinctive look to your property. Our services include but are not limited to flooring, partitions, flooring, ceiling decor services, exterior decor services, interior decor services, and office interior decor services

Electric Work - Industrial, commercial, residential, or defense areas, we offer high-quality electric work with precision. Whether it is about illuminating an area, installing new outlets, or preventing fire, we are the first choice when it comes to electrical services.

Electronic Security Systems

A wide-ranging and comprehensive idea about electronic security technology lets us provide our clients with up-to-the-minute and robust solutions for the safety of properties and staff.
